Registration Deadline:

11/11/19 @ Noon

Todd Spindler will present Durable Concrete Solutions highlighting current concrete admixture and additive technologies for improved design performance. Density, watertightness, consolidation, crack limitation, and corrosion protection concepts will be discussed, and a time set aside for questions and answers.

Todd Spindler is the North Central Regional Manager for Sika Corporation's Concrete Division, with 30 years of experience in the concrete production, repair and protection industries, and 28 years with Sika Corporation as a Technical Service Manager, Marketing Manager for Concrete Production and Underground Tunneling, Sales Manager, and Regional Manager for Repair and Protection as well. Todd received his BS in Engineering and Management from Clarkson University, and has been an active participant, officer, and committee member in several local and national trade associations including the American Concrete Institute, National Ready Mixed Concrete Association, National Precast Concrete Association, Precast/Prestressed Concrete Institute, Sealant, Waterproofing, and Restoration Institute, and International Concrete Repair Institute.
